● Packing Information

14 boxes in total:

Greenhouse Boxes

a. Aluminum Frame & Hardware:

b. Polycarbonate Panels:

c. Foundation Frame & Hardware:

Extension Kit Boxes x 2 sets

Ext. Kit:

Packing List:

Please refer to documents provided in the boxes.

Safety Advice

1. This product is designed to be used as a greenhouse.
2. It is important to assemble the product according to this manual, do not skip or modify any steps.
3. Wear gloves, shoes and safety glasses during assembling to avoid injury.
4. Do not climb or stand on the roof.
5. Keep children away from the assembly area.
6. Do not assemble the product in windy, wet or bad weather conditions.
7. Do not assemble the product under the influence of medication, alcohol or drugs.

Assembly & Maintenance

1. Place the parts on a soft surface to avoid scratches and damage.
2. Loosely tighten bolts as you assemble. After the greenhouse is built, and still loosely connected, tighten all bolts completely.

3. Keep the roof and gutters clear of snow, dirt and leaves in order to avoid damage to the product.
4. Clean the product with a mild soap and rinse with cold, clean water.
5. Do not use acetone, abrasive cleaners, or other special detergents to clean the product.
6. Remove the clear film prior to assembly. The white film indicates the UV-Protected side of the panels. Peel back the white film to expose only the edges (until the panels are in place) to ensure that the UV-Protected side is facing outwards in final assembly.

POLYCARBONATE PANEL

7. Cover the two cut edges of the PC panels with the provided H158/159 tape before installation to seal the channels & prevent moisture from getting trapped inside.

Foundation Assembly

STEP 01

Choose a hard, level surface. Clean and position the greenhouse using a level to ensure it is flat. If the selected area is not level, clear and level the installation site first.

● Option 1: Solid foundation

Preferred

● Option 2: Solid frame

Preferred

● Option 3: Firm ground / grass

Possible

The size of the greenhouse displayed is for illustrative purposes only and may not reflect the size of your greenhouse.

Not possible

STEP
02

Lay out the foundation pieces as diagrammed, using the door location as a reference.

BOX	PART	NO.	QTY.

Scan the QR code above
or visit vegogarden.com to learn more
about your Vego Greenhouse Kit.

Foundation Dimension

STEP
03

Slide the heads of 26 S03A bolts in the grooves of the frame, on the inside and outside, as shown below. These will hold the outside connectors and anchor brackets.

STEP
04

Assemble 6 sets of Z1 and 4 sets of Z2 connection plates by loosely installing the bolts and cap nuts.

Z1 x 6

Z2 x 4

STEP
05

Slide Z1 & Z2 in the grooves of foundation pieces to connect each section and tighten the bolts until the frame is flush and square.

STEP
06

Connect the 4 corners with D366 L brackets using the pre-slid bolts and nuts.

Foundation Assembly completed.

Base Assembly

STEP 01

Lay out the base frame pieces as shown in the diagram, **noting that there are two types of corner pieces.**

Scan the QR code above
or visit vegogarden.com to learn more
about your Vego Greenhouse Kit.

STEP 02

Mark 18 anchor holes on ground per the template below.

STEP
03

When connecting the base frame to the Vego Foundation Frame Kit, connect D75 and D76 brackets to the pre-slide S03A bolts, attach M24 nuts and slide the bracket assembly over the marked anchor holes.

When connecting the base frame to your own foundation, use D22 bracket to affix it instead.

a. For wood surfaces, use Z13A wood screws and H79 washers to affix the base through the D75 or D22 bracket.

b. For cement surfaces, drill 16 holes at a 2" depth with a hammer drill and 25/64" drill bit. Insert S08 anchors into the holes, and attach D75 or D22 brackets using the included nuts.

c. For firm ground installation, purchase heavy duty landscape stakes, at least 12", to drive through the anchors into the soil.

Wall Assembly

STEP
01

Starting to the left of the door position, begin the vertical frame assembly. Loosely attach all bolts and nuts, tightening after wall frame assembly is complete.

BOX	PART	NO	QTY
BOX 3		L01A	1

Scan the QR code above
or visit vegogarden.com to learn more
about your Vego Greenhouse Kit.

Note:

For L02A frame: the cut ends face upward

For L01A,B,E,F frames: the ends with holes drilled further from the edge face upward

STEP
02

Attach a vertical frame piece, followed by a horizontal piece, moving around the greenhouse clockwise. It is important for structural stability during assembly to attach horizontal braces after each vertical component. Cap nuts always face inside.

03 Door Frame Assembly

Note: Specific bolts and nuts are required to complete the installation, as shown in the diagram.

For L08A, S27A flat head bolts and M31 nuts are used to secure the interior side of the door frame.

S03A hex head bolts and M24 nuts are used for the external side of the door frame.

For L03A/B, use S03A hex head bolts and M24 nuts to secure in place.

STEP
05

PC Wall Panel Assembly

Note: The white film indicates the UV-protected side of the panels. We recommend waiting to remove the white film until you have placed the panels in the frame, to ensure that the UV side is facing outwards.

Insert panels in the grooves as shown in the diagram below, ensuring the UV side of the panels are facing outwards.

Note: Hex tool required.

Place S03A bolts on hex tool, load it into the hole between the gap of the two frames, attaching M24 nuts loosely, then remove the hex tool.

Repeat this step for all holes in hard to reach spots.

EBOX 1		D25	4
		S03A	
		M6X10	48
		M24	
		M6	48

For D349 connectors shown in image 2, do not insert bolts into the middle top 2 holes yet; this will be completed in a later step.

1

2

3

STEP

08 D25 Gutter Connectors

Slide 4 S03A bolts in the grooves of the frame, two from the front, two from the back, and position them as shown in the diagram.

Secure the D25 gutter connectors with M24 nuts.

Wall assembly completed.

Roof Assembly

STEP

01

Front & Back Gable Assembly

Note: Specific hardware is required for top and bottom holes on L03F

Top holes: S03A, M24

Bottom holes: S27A, H137, M31

BOX	PART	NO	QTY
BOX 3		L03F	1

Assemble 2 sets of roof frame (G1) supports by connecting L02C pieces with D348 pieces. Then assemble and attach the support bar by connecting a D129 to each end of L05E with S03A bolts. The support bar then can be bolted to the underside of the roof frame support as shown.

04 Ridge and Roof Panel Assembly

Install roof frame G1 as shown. Secure with bolts and cap nuts.

Install the ridge along the top of the roof. First, gently pull the roof frame pieces apart at the peak, and insert the ridge piece, aligning the bolt holes, and attach.

BOX	PART	NO	QTY
		G1	1
EBOX 1		L06A	1
		S03A M6X10	8
		M24 M6	8

Install horizontal roof frame pieces (L04E) facing the back of the greenhouse as shown.
 Attach L04E using bolts and cap nuts.

EBOX 1		L04E	2
EBOX 3		Y8	2
EBOX 3		Y9	2
		S03A	16
		M6X10	
		M24	16
		M6	
		H158	1

Slide Y8 PC panels, UV side out, into place.

Slide Y9 panels into the peak of the greenhouse as shown, and secure to the ridge temporarily using painters tape.

As you install each roof PC panel, go ahead and apply silicone caulk around the edges to keep things watertight.

Scan the QR code above
or visit vegogarden.com to learn more
about your Vego Greenhouse Kit.

After the panels are in place, follow them by attaching two L02B pieces, making sure the slot fits into the horizontal frame, and bolt holes are aligned & flush. Secure with bolts and cap nuts.

Insert the cut end of L02B onto
L09 as shown

Scan the QR code above
or visit vegogarden.com to learn more
about your Vego Greenhouse Kit.

STEP
05

Install horizontal roof frame pieces (L04D). Attach L04D using bolts and cap nuts.

L01C/L01D

BOX	PART	NO	QTY

		M6	
		H158	1

Note: The white film indicates the UV-protected side of the panels. We recommend waiting to remove the white film until you have placed the panels in the frame, to ensure that the UV side is facing outwards.

Slide Y7 and Y8 into the frames as shown in the diagram, UV side up.

Attach L12C and L12D pieces to the outside edges of the roof, to cap the PC panels. L12C will be on the left when you are facing the outside of the back.

Note: S21A screws are pre-attached on L01C and L01D frames, unthread and use them to secure L12C and L12D onto L01C and L01D.

06 Roof Ridge PC Panel Assembly

BOX	PART	NO	QTY

		H158	1

Scan the QR code above
or visit vegogarden.com to learn more
about your Vego Greenhouse Kit.

Hold L06A ridge piece in place, aligning the bolt holes, and attach.

Note: Each time you attach an L06A piece, one person needs to hold the L06A piece in place until the L02B pieces are attached, to avoid bending the frame.

Using the self-tapping screws Z08A, connect the center ridge cap (D26) to the middle joint of the roof.

Install horizontal roof frame pieces (L04D) on the other side. Attach L04D using bolts and cap nuts.

Repeat same steps for frames and panels assembly.

Slide Y7 & Y8 PC panels, UV side out, into place as shown.

Scan the QR code above
or visit vegogarden.com to learn more
about your Vego Greenhouse Kit.

After the panels are in place, follow them by attaching two L02B pieces, making sure the slot fits into the horizontal frame, and bolt holes are aligned & flush. Secure with bolts and cap nuts.

BOX	PART	NO	QTY

BOX 5		Y8	2
	S21A M5X12		10
	S03A M6X10		8
	M24 M6		8
		H158	1

Slide the final Y7 and Y8 PC panels into the frame as shown, UV side out.

As you install each roof PC panel, go ahead and apply silicone caulk around the edges to keep things watertight.

Scan the QR code above
or visit **vegogarden.com** to learn more
about your Vego Greenhouse Kit.

Attach L12C and L12D pieces to the outside edges of the roof, to cap the PC panels. L12C will be on the left when you are facing the door.

Note: S21A screws are pre-attached on L01C and L01D frames, unthread and use them to secure L12C and L12D onto L01C and L01D.

Roof Assembly completed.

Vent Assembly

STEP 01

With a PC panel, UV side down, push the vent frame pieces (L19 x 2, L20, L21) onto the edges as shown, and connect with Z02A screws through the **innermost two holes**.

Slide L11A and L15A onto the L20 side of the vents as shown in the diagram.
Repeat these steps to assemble a total of 8 vents, and trim any excess weather stripping from the ends.

		M6X10	
		M24	8
		M6	
		Z02A	32
		Ø4X16D	
		H158	1

STEP
02

Assemble the door side frames attaching the L17 center frame to the corresponding door side frames, L16C/L16A for the left door and L18A/L16A for the right door.

Assembly instructions for DOOR-L

Assembly instructions for DOOR-R

Secure the hinges to the door with S27 screws already installed in L16A pieces.

03 Door & Lock Installation

BOX	PART	NO	QTY
	DOOR-L	1	
	DOOR-R	1	
BOX 2	H199	1	
	Z17 A M4.8X16	8	
	S27 A M5X12	14	

Disassemble the door lock and install it onto the right door. Make sure the keyhole faces outward and the handle rests horizontally as shown.

a: Interior Backplate with handle

b: Active Exterior Backplate with handle

c: Latch Plate

d: Lock Cylinder

e: Knob Spindle

f: Blackplate Bolt

g: Lock Cylinder Bolt

h: Latch Plate Bolt

i: Interior Backplate Nut

j: Exterior Backplate Nut with thread

k: Latch bolt

l: Deadbolt

Note: Remove the S27 bolts from the door. Hold the door and affix the hinges to the door frame and secure with S27A bolts. Finally reinforce the structure with Z17 screws.

04 Install Ridge End Caps

Attach ridge end caps to the front and back top corners of the greenhouse using Z08A screws.

BOX	PART	NO	QTY
BOX 2		J198	2
BOX 2		J197R	2
BOX 2		J197L	2
BOX 2		J94	4
BOX 2		L25	4
BOX 2		J93	4
BOX 2		J199	4
BOX 2		H178	1
		Z08A	16
		M4.2X16	
		Z02A	4
		Ø4X16D	

05 Drainage Pipe Assembly

Using Z08A screws, attach drainage pipe connectors to all four corners, noting placement in the image below.

Push J94, L25 and J93 together as shown in diagram, and connect to each drainage pipe connector.

STEP

06 Drainage Pipe Bracket Assembly

Use Z08A screws to attach one drainage pipe bracket to each corner as shown.

STEP
07

Remove the protective film on the Vego Garden branding plate.

STEP
08

Make a final pass through your greenhouse, and ensure all nuts are tightened. Apply silicone caulk around all the PC panels for water tightness.

**Now your greenhouse is ready to use!
Happy gardening!**
